

HI-1018: The Electronic Health Record

Course Introduction

Course Introduction

Chapter 1 - The Electronic Health Record

Introduction

History

Medical Record History

Medical Records Purpose

Paper Records

Electronic Records

EMR versus EHR

Government Health Information Initiatives

The Eight Core Functions

Eight Core Functions

Health Info & Data Mgmt

Results Management

Order Management

Decision Support

Electronic Communication & Connectivity

Patient Support

Administrative Processes

Reporting & Population Health

Transitioning

Transitioning

Conversions

Comprehensive/Modular EHR

The Plan Implementation

Considerations

Computers, Scanners, and Other Hardware

Record Retention, Cost Considerations

Selecting an EHR

RFP

Comparing Vendors

Client Server Model

Application Service Provider

Client Server Application

Pre-Implementation Process

Conversion Mistakes

Workflow Changes

EHR Basic Considerations
Introducing the HER
Redesign of Workflow
Daily Task Changes
Collection of Data
Data
Templates
Cloning Data
Common Problems
Challenges
Implementation
Patient Notification
Contingency Plan
Measurement for Success
Chapter 1 Review

Chapter 2 - HIPAA and HITECH

HIPAA and HITECH
Privacy Rights
What is HIPAA?
Purpose of HIPAA
Title I and Title II
What is HITECH?
Related Organizations
HIPAA and HITECH Related Terms
Defining Privacy
Covered Entity and Business Associate
Who is a Covered Entity?
Requirements of the Provider
Requirements of the Medical Staff
Privileged Information
Non-Privileged Information
Privacy and Patient Rights
Privacy Rule
What Does PHI Include?
Privacy Rights
Patient Bill of Rights
Right to Notice of Privacy Practices
Notice of Privacy Practice
Right to Access PHI
Right to Request Restrictions
Right to Request Confidential Communications
Right to Request Amendment

Right to Receive an Account of Disclosures
Have a Complaint?
Criteria for a Complaint
Required Activities of the Privacy Rule
Training
Safeguards to Privacy
Security Rule
Standards for Electronic Transactions
Standardized Code Sets
Vocabularies, Identifiers and other Standards
Safeguards to Security
Civil Penalties
Criminal Penalties
Compliance
Fraud
Suspected Fraud
Abuse
Implementing a Compliance Plan
7 Basic Components of a Compliance Plan
Civil Monetary Penalties Law
HIPAA Privacy Reminder
Chapter 2 Review

Chapter 3 - Privacy, Security & Meaningful Use

Maintaining Privacy
Confidentiality
Anonymity
Disclosure
Types of Consent
TPO - Exception
Exception to the Right of Privacy
Use & Disclosure
Incidental Disclosure
Authorizations
Defective Authorization
Minor's Health Record
Family and Friends
Security Rule
Safeguards
Employee Privileges
Audit Trails
Minimum Necessary Rule
Meaningful Use

What is Meaningful Use?
Meaningful Use Stage 1
Meaningful Use Stage 2
Meaningful Use Stage 3
Chapter 3 Review

Chapter 4 - Managing EHR, and the Role of the EHR Specialist

Managing the EHR
Safety and Security
Organization of the Medical Record
Principal Use of EHR
Retention
Back up
The Back Up Plan
Purging
The Role of the Healthcare Professional
Basic Skills
Advanced Skills
Tasks & Responsibilities
Administrative Tasks
Clinical Tasks
Billing and Coding Tasks
Consideration of Time
Prep for Patient Arrival
Visit Completion
Office Procedures
Front Office Duties
Monthly Duties
Daily Tasks
Criteria
Office Policy Education
Chapter 4 Review

Chapter 05 - Front Office Communication

Expectations
Front Office Staff Activities
Managing Patient Flow
Office Visitors
Registration Help
Pre Registration
New Patient Registration
Established Patient Update
Communications

Communication
Active Listening
Open & Closed Questions
The Angry Patient
Advice?
Handling Complaints
E-Mails
Written Correspondence
Education Material
Faxing
AHIMA Faxing Recommendations
Maintain Confidentiality
Telephone Techniques
The Telephone
Phone Etiquette
Your Phone Voice
Typical Incoming Calls
Common Sources
Screening the Calls
Taking a Message?
Outgoing Calls
Emergency Calls
Appointment Management
Scheduling Guidelines
Types of Appointments
Appointment Types
Appointment Challenges
Handling Appointments
Record Missed Appointments
New or Established Appointments
Referrals and Transitions
Recall Appointments
Appointment Confirmation
Chapter 5 Review

Chapter 6 - Practice Management System

The Digital Medical Office
The PMS Purpose
Skills & Knowledge
General Applications
Practice Management Software
Patient Demographics
Billing and Insurance Information
Appointment Scheduling
Clinical Decision Support (CDS)
E-Prescribing

Contents of the Medical Record

Medical Record Basics

Medical Record Contents

Health Information

Administration

Legal Documents

Principals & Applications

Ownership of Paper Record

Ownership of EHR

Exception to MR Access

Advantages of EHR

Improved Satisfaction

Disadvantages

Affects on Staff

Financial Considerations

Security Issues

Documentation

Documenting

The Documenters

Quality of Data

Nine Characteristics of Data

Corrections to EHR

Amendments

Security of Information

Professional Organizations

Purpose of Organizations

Benefits

AHIMA

AAPC

AAMA

AMT

Chapter 6 Review

Chapter 7 - Payment Sources

Payment Responsibility

TOS Payments

Patient Responsibilities

Defining Patient Responsibilities

Guarantor

Third Party Payors

Collection Letter

Telephone Collections

Face to Face Collections
Insurances
Individual
Commercial
Group
HMO
PPO
Government
Insurance Terms
Participating Physicians
Non-Participating Physicians
Adjustments
In Network
Out of Network
Medical Necessity
Coordination of Benefits
Birthday Rule
Chapter 7 Review

Chapter 8 - Coding

Coding Sources
Purpose of Coding
CPT
HCPCS
ICD9
ICD10
Inpatient Hospital Procedures
CPT Codes
CPT Contents
Alpha Index
CPT Descriptions
Modifying Terms
Evaluation & Management
Considering Factors of E/M
Key Components
History of E/M
Exam for E/M
Medical Decision Making
Anesthesia
Surgery Section
Surgical Procedures
Radiology
Pathology

Surgical Pathology
Medicine
Modifiers
Bundled & Unbundled
CPT Coding Rules
Special Reports
Global Surgical Package
HCPCS Codes
HCPCS
HCPCS Sections
ICD Codes
ICD-9 and ICD-10
ICD-9
Supplemental Classifications
Structure of ICD-9 Codes
Organization of ICD-10
Structure of ICD-10
ICD-10-CM Structure
Coding Rules
ICD Coding Tips
Chapter 8 Review

Chapter 9 - Billing Process

The Encounter
The Visit
The Encounter cont.
Discussing Fees
Estimates
Conclusion of Visit
The Billing Process
Internal Billing
Guidelines for Billing
Computerized Billing
Pre-approval
Authorization
Handling Claims
Claim Submission Resources
Paper Claim
Electronic Claim
History of CMS1500
OCR Guidelines
CMS1500 Form
Top Half of CSM1500

Bottom Half of CMS1500
History of UB Form
Inpatient Terms
Chapter 9 Review

Chapter 10 - Accounts Receivable and Reimbursement

Reimbursement
Determining Fees
Fee for Service
Insurance Fee Schedule
UCR Fees
RVS
RVRBS
Capitated Service
Physician Fee Profile
Payor Requirements
Adjustments
Medical Necessity
Accounts Receivable
Claims Follow Up
Status of Claims
Claim Types
Rejected Claims
Denied Claims
Error Location & Prevention
Audit Trail
Compliance
Updates
Standardized Code Set
NCCI
Fraud
Abuse
Internal Audits
Prospective Audit
Retrospective Audit
External Audit
Downcoding
Upcoding
Encryption
Federal Register
Chapter 10 Review

Chapter 11 - Documentation of Patient Care

Documentation of Patient Care

Types of Patient Care

Benefits

Speech Recognition

Remote / eHealth

E-Visits

Purpose of Documentation

What is Health Data?

Organization of Data

Using the Data

Providing Quality Care

Reimbursement

Research

Legal Protection

Quality of Documentation

High Quality Data

Validity

Reliability

Completeness

Recognizability

Timeliness

Relevance

Accessibility

Security

Legality

Common Types of Documentation

Authorizations

Referrals

Digital Signatures

Consent

Notice of Privacy Practice

Medical Release Authorization

Chapter 11 Review

Chapter 12 - Clinical Documentation

Clinical Documentation

Common Contents

Documenting in the MR

Progress Notes

Source Oriented Record

SOAP Approach

Subjective

Objective
Assessment
Plan
Acute vs. Chronic
Use of Abbreviations
Anatomy of the Visit
Chief Complaint
HPI
PFSH
Past History
Family History
Social History
ROS
Vital Signs
Examination
Medical Decision Making
Pharmaceutical Documentation
Medication Administration Record (MAR)
Allergies
Immunization/Vaccines
Prescriptions Ordered
Making Corrections
Addendum
Electronic Correction
Handwritten Correction
Chapter 12 Review

Chapter 13 - Patient Education & Support

Patient Health Promotion
EHR Technology
CDS
Resistance of CDS
Improving CDS Factors
Clinical Trends
Nationwide Trends
Preventative Measures
Health Literacy
Patient Education
Patient Education Guidelines
Screenings
Using EHR for Screenings
Disease Prevention

Benchmarks
Templates
Clinical Trends
Baseline Data
Body Mass Index (BMI)
Comorbid Condition
Evidence-based Practice
Chapter 13 Review

Chapter 14 - Personal Health Record

What is PHR?
PHR
Purpose of PHR
Sharing Information
Benefits of PHR's
Disadvantage of PHR
PHR vs. EHR
Creation of PHR
Why Create?
Creation Process
Electronic Storage
Web Storage
Patient Portal
Administrative Information
Health Information
Maintenance
Advocacy
Advance Directives
Living Will
Power of Attorney
Innovative Features
New Technology
Synchronization
ICE
Drug Alerts
Personal Trainer
Social Networking
Chapter 14 Review

Chapter 15 - Reporting

Abbreviations
Reporting
Census Reporting

Census
Mortality/Morbidity
Continuity of Care
Outpatient Census-type Reporting
Quality / Performance Improvement
Quality Patient Care reporting
Performance Improvement
Quality Improvement Measures
Benchmarks or Key Performance Indicators (KPI)
Templates
Comorbid Conditions
Statistics and Research Reporting
Statistics and Research
Research
Accounts Receivable and Revenue Management
A/R and Revenue Management
Revenue Cycle Management
Drug Related Groups (DRG)
Prospective Payment System (PPS)
Average Length of Stay (ALOS)
Other Revenue Reporting
Accounts Receivable and Reimbursement
Financial Analysis Planning
Financial Analysis
Budget Process
Chapter 15 Review

Course Closure
